joli new products · 2025

Our 2025 collections elevate both indoor and outdoor living, where refined aesthetics and lasting comfort come together. Each piece reflects Joli's dedication to craftsmanship, precise finishing, and carefully selected materials. With a strong focus on timeless design and enduring quality, we create living spaces that embody understated luxury and functional elegance.

arcs

Designed by Jeffrey Huyghe

Meet our Arcs table, entirely new and designed by Jeffrey Huyghe. The vaulted structure of this table, inspired by ancient architectural styles, gives the piece its name. The elegant curves of the aluminium sheet legs blend seamlessly with the ceramic tabletop, providing both stability and refined aesthetics.

Available as:

- Dining tables (oval & faux elyps)
- Coffee tables (oval & rond)
- Bench

central

Designed by Mathias De Ferm

The Central collection has been part of Joli for two years already, but this year we are expanding it even further. We are introducing two round tables: the Central Big (158 cm) and a dining table with a wooden top (120 and 100 cm). In addition, we present an extra-large table: the Faux Carré Extendable. With just a simple movement, this table transforms from a length of 158 cm to an impressive 293 cm.

Available as:

- Round dining table with a wooden top 120 en 100 cm
- Central Big Round with a diameter of 158 cm
- Central Faux Carre Extendable (158 > 293 cm)

nido

Designed by Miel Daenens

This chair offers the perfect balance between elegance and comfort. The sharp, flowing edge creates a bold contrast with the generous volume of the inviting interior. Like a protective shell, the exterior encloses the warmth within, evoking a sense of security.

Good to know: the exterior can be finished in leather, while the interior is available in fabric.

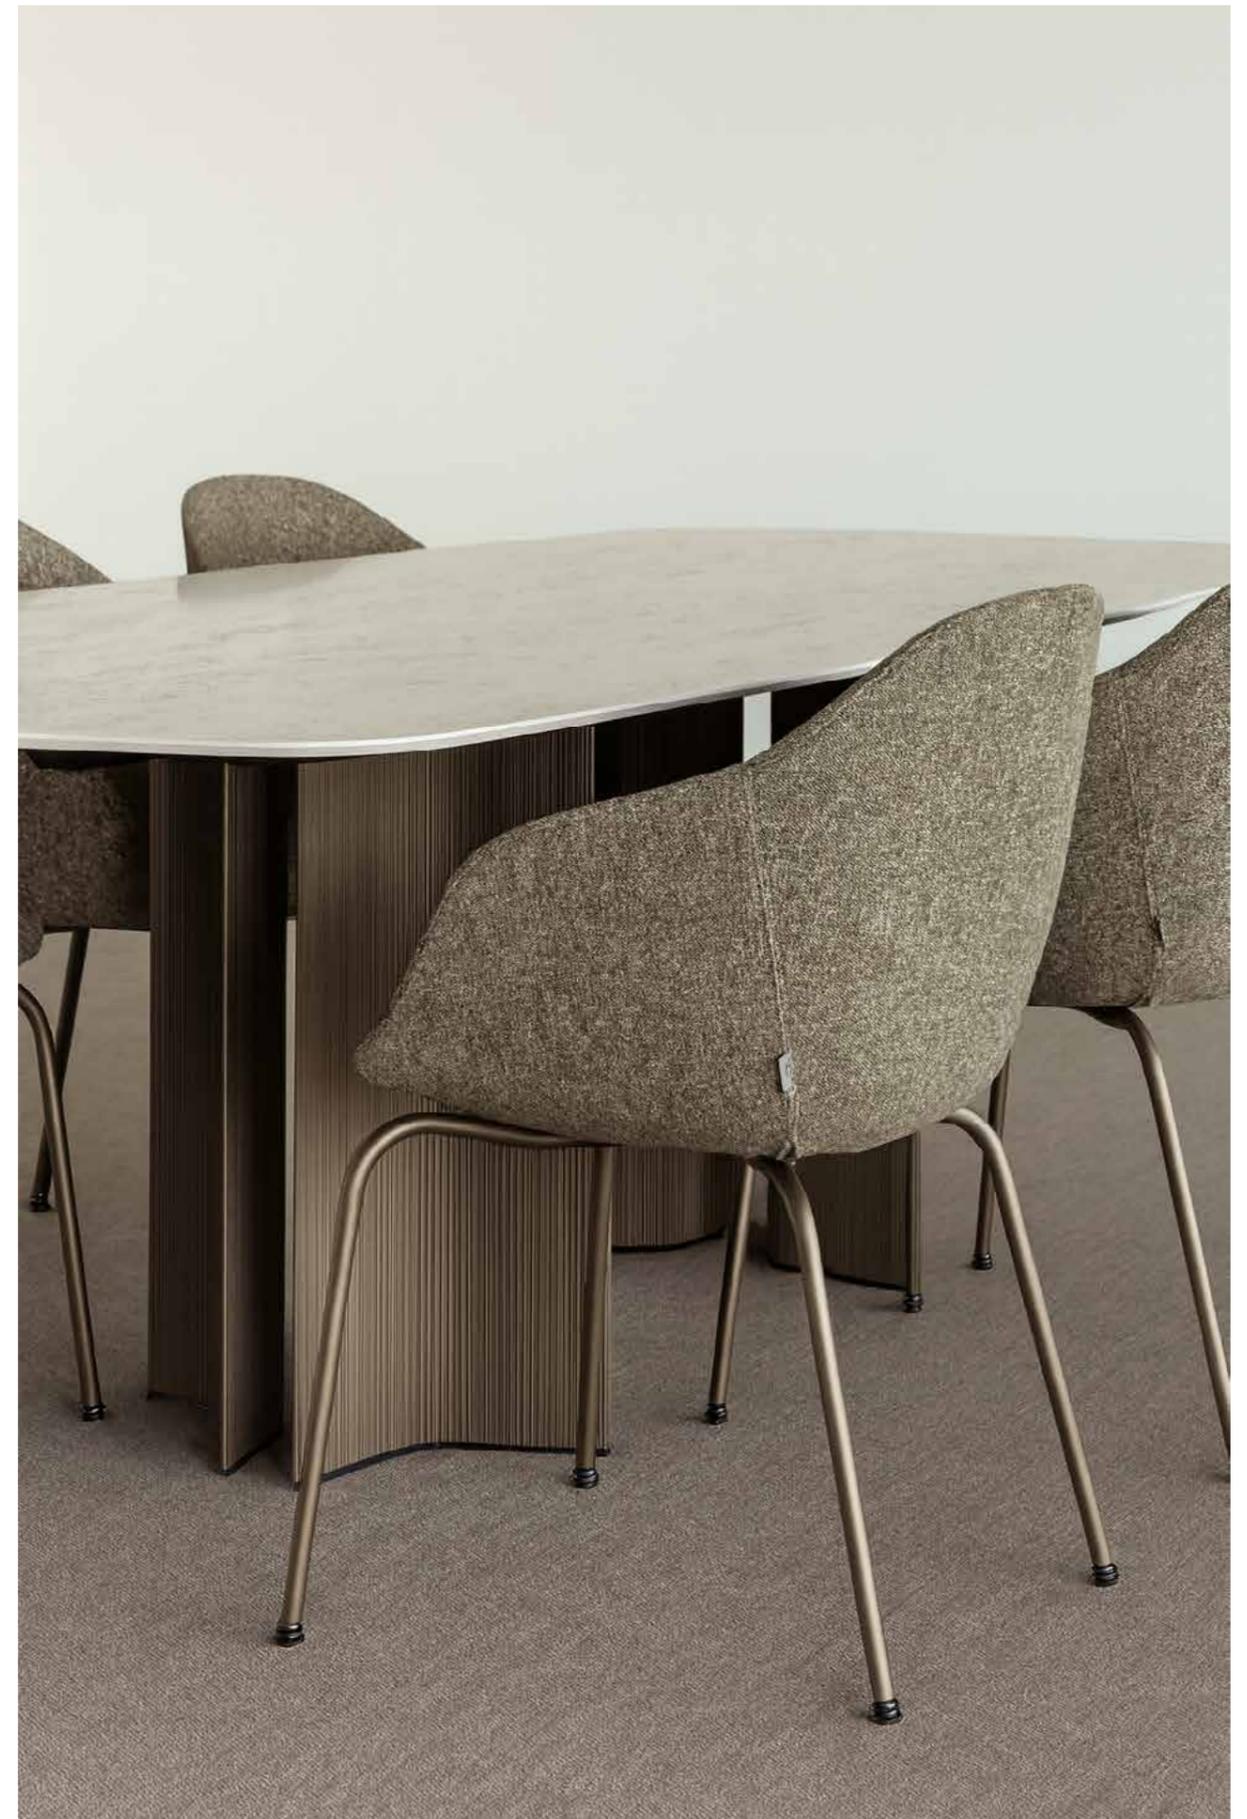

pulse

Designed by Mathias De Ferm

Pulse gives a new definition to refinement and functionality. Sculptural aluminium legs with a delicate ribbed texture create a play of light and shadow, giving the tables a sense of constant movement. Designed by Mathias De Ferm, the collection includes dining tables and coffee tables with a timeless character and a distinctive signature.

Available as:

- Dining tables (elyps & faux elyps)
- Coffee tables (elyps & faux elyps)

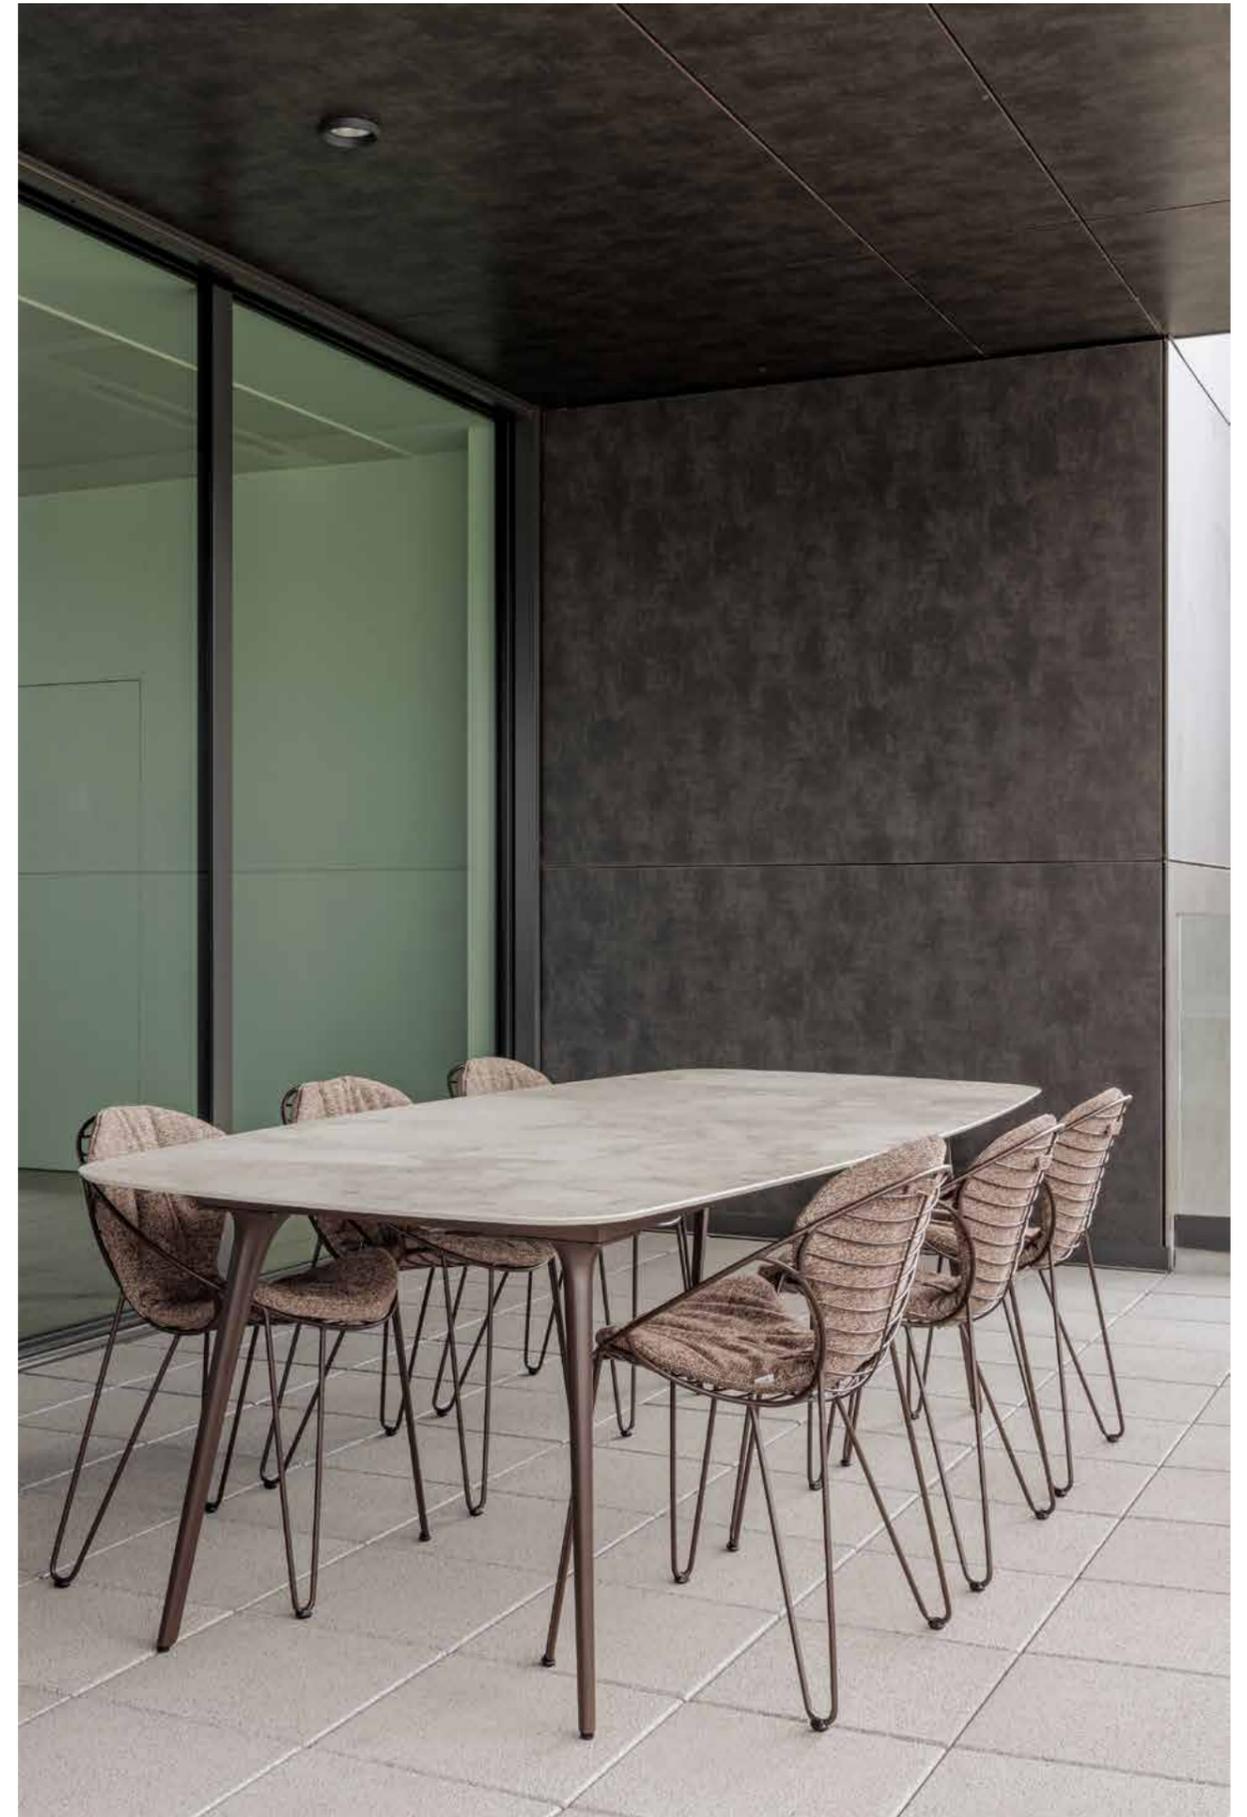

tendo

Designed by Quinten Bossuyt

Tendo is defined by its sculptural aluminium legs, inspired by the organic elegance of human anatomy. Flowing curves and refined details give it a pure and graceful appearance. Designed with precision, it brings together stability and clarity in one fluid form.

Available as::

- Dining table (rectangular, elyps & faux elyps)

wire daybed

Designed by Mathias De Ferm

We are adding a beautiful extension to our well-known Wire collection. The new Daybed is designed for pure relaxation. Inspired by long, leisurely mornings in the sun, this lounge combines an elegant, minimalist frame with perfectly fitted cushions. It embodies the lightness and durability of the Wire collection while ensuring both stability and comfort.

new colours

Ceramics: travertino albo & pietra matera

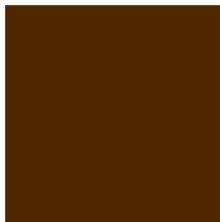

Two beautiful new ceramic tabletops that, thanks to a new technique, feature a tangible, textured surface.

Wooden tops: natural oak & dark oak

Frame: brown

Outdoor fabric: grain
